Peace Envoys Loll in  
Palm Garden Try-  
ing to Keep Cool

(Scripps-McRae Dispatch.)  
PORTSMOUTH, N. H., Aug. 11.—  
The Russians are loafing today.  
All members of the party except  
Witte were conspicuous about the  
hotel and the city.  
Pokotiloff, the Russian minister to  
China, went this morning to the rear  
of the hotel and then sat in the palm  
garden seeking to keep cool with li-  
quids and cigarettes.  
Expect Reply Tonight.  
It is expected Russia's answer will  
be given tomorrow. The Japanese  
first draft of the terms have  
been sent to St. Petersburg and Witte  
announces he expects to hear from  
the czar before night.  
Up to St. Petersburg.  
This indicates it is up to St. Peters-  
burg now to do something.  
The Japanese keep as busy as bees  
all day. The draft of the terms pre-  
sented yesterday only presented the  
fundamental principles as a basis for  
negotiations. Preparations of the de-  
tails are keeping the Japanese busy.  
Their secretaries are preparing tabu-  
lated arguments and document and  
papers for use at the next conference.  
Prepare for Capitulation.  
ST. PETERSBURG, Aug. 11.—It  
is reported from the front that Oya-  
ma and other officers are preparing  
for ceremonies attendant upon the ex-  
pected declaration of peace. The rail-  
road has been repaired to facilitate  
the meeting of Linevitch and Oyama.

BUCKET  
SHOPS  
RAIDED

Hundred Stock Gamb-  
lers and Many Women  
Taken in Tow

(Scripps-McRae Dispatch.)  
CHICAGO, Aug. 11.—A score of  
down town bucket shops were raided  
by detectives this afternoon on a  
complaint of board of trade men that  
they are doing an illegitimate busi-  
ness. More than a hundred inmates  
were arrested. The places were dem-  
olished, the wires were cut and tele-  
phones were torn out. Frantic ef-  
orts to escape only resulted in run-  
ning into the arms of officers. Many  
women were taken.

HEMMINWAY MAY BE  
HELD BY QUAR-  
ANTINE

It is reported today that Prof.  
Hemminway, principal of the La  
Crosse high school is in New Orleans  
and is held by the yellow fever quar-  
antine and that he may not reach  
here in time for the beginning of the  
fall term of school in September.  
Superintendent Bird said this after-  
noon that he received a letter from  
Mr. Hemminway, dated Hammond,  
Louisiana, some time ago in which  
he stated he intended going to New  
Orleans if the yellow fever situation  
did not grow worse, but stated that  
he had heard nothing from him since  
that date.

WANTS \$200 FOR A  
WHIPPING

Max Graml has started a suit for  
\$200 against Albert A. Young, quar-  
ryman, for bruises on the body al-  
leged to have been inflicted by the  
latter with a horse whip.  
The quarrel, which occurred at the  
foot of Grand-Dad bluff, was started,  
it is said, over a crowd accusing  
Young of stealing the whip which he  
had in his possession at the time. This  
he emphatically denied and threaten-  
ed to take vengeance out of the  
crowd. Graml, who is 61 years of  
age, called him a fool, it is said, and  
was beaten with the whip.  
The case was tried before Judge  
Prentiss this morning and a verdict  
will be rendered by the court at 9  
o'clock tomorrow morning.

CZEPOWOXSKI, HE  
CALLED BAD  
NAMES

Ignatz Czepowoxski, residing in  
the southern part of the city, was  
fined \$5 and costs by Judge Hunt this  
morning on the charge of calling a  
lot of neighbor women bad names.  
The defendant pleaded his own case  
with a long dissertation on how he  
was in the habit of talking to himself  
and at the time in question was using  
the language charged in the com-  
plaint to the chickens in the yard.  
The women, however, knew better,  
and the court took their word for it.

Taggart Tells Some Odd  
Occurrences While he  
Lived on Island

(Scripps-McRae Dispatch.)  
WOOSTER, O., Aug. 11.—Capt.  
Taggart went on the stand when  
court opened this morning. He told  
of receiving an anonymous letter  
mentioning Mrs. Taggart and Luet.  
Rither. He said he sent a letter to  
Mrs. Taggart, but never talked with  
her about it.  
The captain said Mrs. Taggart was  
very angry when he suggested when  
they lived in the Philippines that she  
"so conduct herself that the servants  
wouldn't talk."  
He said the servants had warned  
him that he had better stay at home  
afternoons.  
He said he told her she must never  
associate with Capt. Bash again, af-  
ter she came home at unseasonable hours  
of the night with him.  
He told of a dinner party at Colo-  
nel Minor's house at which the colo-  
nel "pinched Mrs. Taggart's leg un-  
til sore."  
"When I asked my wife," said the  
witness, "she said the old fool was  
drunk."  
The ladies were accustomed to call-  
ing Minor, "the old leg feeder."  
He told of his wife's drinking bouts  
and alleged intimacy with Lieut. For-  
tesque.

City of Traverse prepared this after-  
noon to take out a crew. The po-  
lice are on the watch. They expect  
to convict if the boat sails on the

age may be seized and the master's  
license revoked if the charge are pro-  
ven.

PRESIDENT AT  
CHAUTAUQUA

(Scripps-McRae Dispatch.)  
CHAUTAUQUA, N. Y., Aug. 11.—  
The president and party reached here  
in a driving rain this morning and  
took carriages to Higgins hall where  
they had breakfast.  
The young ladies of the domestic  
science department of the chautauqua  
cooked the meal and acted as wait-  
resses. The party took a drive for  
thirty minutes after breakfast and  
then went to the hall where they  
were introduced by Bishop Vincent  
who delivered an address. The pres-  
ident also talked.  
W. R. Montague has returned from  
an eight weeks' trip in the east.

LA CROSSE WILL BE IN THE  
LEAGUE NEXT SEASON, SURE

Powers Says Two Circuits May be  
Formed But This City Will not be  
Left off the Baseball Map

President Powers of the Wisconsin  
State league does not propose to shut  
out La Crosse from the state league  
next year if he can help it. The fact  
that an eight-club circuit made up  
exclusively of eastern Wisconsin  
teams had been practically formed for  
next year, does not indicate there is  
no hope for La Crosse.  
This was learned today when Pres-  
ident Powers arrived here from Wau-  
saw, where he has been patching up  
difficulties in which the team there  
found itself. Mr. Powers' plans for  
next year in brief are to have two  
circuits in Wisconsin, an eight-team  
circuit and another with six teams.  
This has not been definitely decided  
upon, but he will consult with the  
magnates here and perhaps by to-  
morrow some more definite informa-  
tion regarding La Crosse's chances  
can be given out.  
Mr. Powers reports that Malvin,  
the deposed manager of the Freeport  
team, has been installed at the head  
of the Wausau team and is playing  
the first game today in that capacity.  
Ramsey, former captain and second  
baseman of the La Crosse team, is  
being given a try-out as umpire to-  
day in the game here between La  
Crosse and Oshkosh and if he makes  
good will probably be engaged for  
the balance of the season.  
"How about leaving La Crosse out  
of it?" was asked President Powers  
by a Tribune reporter today.  
"Well, hardly," responded Mr.  
Powers, "we are not going to pass  
up one of the very best towns we  
have, not if we can help it. La Crosse  
will have a league position all right."

"BACH" GETS "SORE" AND  
"BAWLS OUT" COMPTROLLER

Was Explaining to Emery About the In-  
crease Matter and Resented a Sug-  
gestion---The Sieger \$50.

The meeting of the finance com-  
mittee last night developed some-  
thing which was to say the least—  
interesting.  
City Comptroller Connor was in-  
vited by the aldermen to at-  
tend the meeting of the committee,  
it not being customary for the official  
to be present. During the discussion  
Alderman Bacheller grew somewhat  
heated over the matter of the in-  
crease in salary in the engineering  
department.  
Comptroller Connor took issue with  
the alderman when he was explain-  
ing to Alderman Emery that he had  
not had an opportunity to look over  
the bills. Comptroller Connor held  
that the bills were made out and  
were ready for his inspection when  
he visited the office, but that he did  
not look them over.  
Alderman Bacheller thereupon asked  
Connor to retire from the meet-  
ing, and the latter being the guest of  
the aldermen, readily complied. It  
is intimated there was considerable  
warmth displayed by Alderman Bach-  
eller and that epithets not compli-  
mentary to those present were used.  
It is understood that the committee  
decided to grant the increase of \$15  
per month in the salary of Assistant  
Engineer Woods, but that the Sieger  
bill of \$50 for expenses of the trip  
to Chicago will not be allowed.  
City Clerk Sieger says that rather  
than have any more fuss over the  
matter, he will withdraw the bill,  
though he still contends that it was  
legitimate and is due him from the  
city, a contention in which, however,  
the committee differs.

REV. MURPHY RETURNS HOME

The Rev. Ambrose Murphy of the  
St. James church returned this morn-  
ing from an extended visit of about  
three weeks throughout the east.  
Rev. Murphy went from here to  
Milwaukee where he attended the ce-  
remonies of Bishop Schinner who was  
ordained Bishop of the Superior dio-  
cese.  
From there he went to Buffalo, N.  
Y., where a reunion of the Inns-  
bruck Alumni association was held.  
He then left for Boston, Mass.,  
where he attended the convention of  
the Catholic Order of Foresters and  
also visited Newport, Fall River and  
several other places of interest en-  
route here.  
His many friends will no doubt be  
pleased to hear of his return.

IS AUG.  
ERICKSON  
INSANE?

McCaleb, Sign Painter,  
Asks Examination  
by Court

As a result of bringing a charge of  
assault and battery against McCaleb,  
the sign painter, August Erickson is  
being examined for his sanity this af-  
ternoon by Doctors Callahan and  
Beckmann.  
McCaleb charges that Erickson has  
been in the habit of standing across  
the street from his shop and calling  
him names and that a day or two ago  
he ventured into his shop and was  
ousted. For this act Erickson had  
McCaleb arrested on the charge of  
assault. The case was postponed this  
morning for a week.  
In the meantime a petition signed  
by McCaleb and two others to have  
Erickson examined for his sanity was  
presented to the county court. The  
physicians were appointed and the  
case is on this afternoon.  
Judge Brindley took the somewhat  
unusual step of subpoenaing witnes-  
ses for the examination, realizing that  
a fight would be made, and the case  
is attracting considerable attention in  
county court.

GERMAIN IS  
SANE

Jule Germain, a well known char-  
acter about town, was examined as to  
his sanity this afternoon and found  
to be sane. The examination was the  
result of a protracted spree upon  
which Germain has been lately. A  
charge of being a common drunkard  
will probably be preferred against  
him.

KILLED SNAKE WITH

of the town of Shelby, added a live  
one to his large collection yesterday  
when he killed a rattlesnake in his  
yard which had thirteen rattles. Mr.  
Brown backed up his tale this morn-  
ing by bringing the snake into the  
county clerk's office and receiving the  
reward offered by the county.

HIGH  
SCHOOL  
VICTORY

Declared Almost Cert-  
ain Tonight---Call of  
House Expected

There will be a call of the council  
tonight if every member who is in  
the city is not present at the regular  
monthly meeting.  
This unusual proceeding will be de-  
manded if every member is not in his  
seat when the proposition to grant an  
additional appropriation of \$30,000  
for the new high school comes up.  
A canvass of the aldermen, taken by  
one of the members interested in the  
increased appropriation, indicates that  
a sufficient number favor the increase  
and that it can be passed by the re-  
quired three-quarters vote if all are  
present.  
If all the members who are in the  
city are not there when the ordinance  
comes up for final passage a call of  
the house will be demanded, the ser-  
geant will be instructed to close and  
lock the doors and see that no mem-  
ber leaves the chamber, and police-  
men will be sent after the absent  
members. The call of the council  
cannot be broken until the absent  
members appear except by a unanim-  
ous vote of those present.  
Calls of the house occur occasion-  
ally in the legislature when an im-  
portant measure is to be voted upon,  
but a call of the council has not been  
demanded for years.  
The high school ordinance which  
will be voted upon tonight and which  
it is believed will be passed, provides  
an additional appropriation of \$30,000  
for the new structure, which with the  
amount already set aside and appro-  
priated will make a total of \$155,000.  
The board of education has assured  
the council that the building can be  
completed and furnished for that sum,  
and with the understanding that the  
expenses will not run over this  
amount almost unanimous support of  
the council for the ordinance has  
been pledged.

## BURLY SYRIAN SAVED FROM DROWNING AT PUBLIC BATH

Leaped Into Swift Current and Was Under--W. A. Powell Rescues Him in Time.

A burly Syrian, a resident of the north side colony was saved from drowning at the public bath last evening by William A. Powell, a well known local attorney. Three of the Syrians visited the bath and together walked to the upper end of the boom where the current is very swift. They all seemed able to swim, as they leaped into the water without hesitation. The largest of the trio was evidently taken with cramps, as he sank almost immediately. A large crowd of bathers were on the boom when the cry rang out that a man was drowning.

While there were a number of good swimmers among the spectators on the boom Powell was the first and only one to leap into the water. He swam with a swift strong stroke to the drowning man, grasping him by the hair. The Syrian struggled and his rescuer secured a firm hold upon the back of his shirt, holding him away, where he could not reach him, thus dragging both down. Attorney

Frank A. Withrow, tossed a life preserver to Powell and then leaped into the water to assist in the rescue. The Syrian was towed to shore and though he had swallowed a large quantity of water and was almost fainting he recovered after a short time.

The Syrian could not speak English and his companions were so excited they could not give their names to the attendants. Powell, who rescued the man, is one of the strongest and best swimmers who visits the public bath.

## "HUNGRY POINT" TO HAVE MODERN SCHOOLHOUSE

Such is Hope of the Board of Education--Members to Attend the Council Meeting Tonight

"Hungry Point" is to have a school house within three or four years. This was assured at the meeting of the school board last night, when preliminary steps were taken toward the purchase of a site. The land will be purchased at once and a couple of branch wooden school buildings, owned by the city, will be moved there to relieve present cramped conditions existing in the two schools located in the southern part of the city. Later a modern brick school building will be erected.

### Scott Wants \$25 Extra.

W. W. Scott, who agreed to take the school census for \$225, last night presented a bill to the board for \$25 additional, which he thought he had earned by reason of extra work performed on account of going a number of times to houses where people were not at home on account of Barnum's circus and the carnival. The matter was referred to the claims committee.

President Luening reported that

the question of granting an additional appropriation for the new high school would come before the council tonight and asked that members of the board be present.

## Steamer Quincy New Bridge Ready For At Clinton Service

Wednesday marked the conclusion of repairs on the steamer Quincy at Eagle Point and today the big craft, which has lain at the docks there since April 1st, will be liberated from its moorings and gracefully slide into the Mississippi. The work of caulking the hull has been completed and the installation of the boilers, which have recently been transported to Eagle Point from the Dubuque Boat and Boiler works, where they were manufactured, took place yesterday.

It is presumed that the Quincy will go into commission Monday, Sept. 4. Her departure will mark the return of the Sydney which will be brought to Eagle Point and given a general and thorough overhauling. The Sydney is now in commission between St. Paul and St. Louis in the passenger traffic and is a companion boat to the St. Paul.

## WISCONSIN GIRL'S BODY FOUND IN INDIANA.

LA PORTE, Ind., Aug. 11.—The body of Olive R. Templeton of Sawyer, Wis., who disappeared Feb. 2, has been found near St. Joseph, Mich. She died, it is believed, while wandering about aimlessly, homesick.

Miss Templeton's case baffled the authorities for months. She disappeared from the chapel of Immanuel college of the Adventists, while regular exercises were held there.

Several letters found a few days later indicated that she had been homesick. The body was washed up on the shore by the swirl of the water in the wake of a passing steamer. The authorities were at once notified and the badly decomposed body was taken to the morgue at St. Joseph, where by certain marks, which are still distinguished, the remains were readily identified as those of the pretty Sawyer girl who, many believed, may have been murdered.

## New Bridge At Clinton

Actual work toward the erection of the new railroad bridge across the Mississippi river at Clinton has been commenced by the Chicago, Milwaukee & St. Paul Railroad company. A pile driver gang arrived Tuesday and are getting their machinery and boats in readiness to begin driving the piles used in supporting the false work. Two pile drivers are also there and will be placed on the barges instead of the bridge as not to interfere with the running of trains. It is thought that the work will require about fifteen months' time.

It has a natural deep water landing, capable of accommodating the largest steamer.

## LACROSSE COUNTY WAS CENTER FOR MOUND BUILDERS

So Says Member of State Archeological Society--Sun Worshippers Near Trempealeau.

G. H. Squier, of Trempealeau, a member of the Wisconsin Archeological society asserts that the center of population for the mound builders in this section of the county was at Mindoro, La Crosse county. Mr. Squier says:

"The surface of the Trempealeau bluffs contain many oval mounds still. Yet I think Judge George Gale, who wrote about mounds in the county forty years ago, overestimated when he placed the Trempealeau mounds between 1,000 and 2,000. Doubtless his enumeration, which occurred in a 400-page volume, 'The Upper Mississippi,' included some natural elevations. The frequent appearance of platform mounds near Trempealeau village is a strong evidence that a race of sun-worshippers formerly inhabited the district. At least the peculiar location of these mounds suggests sun-worship, and there is independent evidence that

this form of worship was practiced in some portions of the Mississippi valley. I believe that the greatest mound builder center of population in western Wisconsin was in the Lewis valley, near Mindoro postoffice, in the town of Farmington, La Crosse county, and stretched for perhaps half a mile eastward. Doubtless a large city was located there. For several years after the land was brought under cultivation many implements were found. Most of the mounds there were located in the finest farming land of the valley, and have been ploughed. The mounds are more abundant around Trempealeau than anywhere else in the region, but there is no corresponding abundance of implements, a perplexing condition. The explanation may possibly be that the locality had something of a sacred character, being a place of resort for worship and perhaps for burial, rather than the permanent residence of a large number."

# ODDS AND ENDS SALE

## Men's and Boys' Clothing HATS & FURNISHINGS AT 25 PER CENT OFF.

We have finished our inventory. It shows a rather interesting state of affairs. It shows that nearly every lot of goods in our store has been broken into by the sales of the season. It shows that we must hustle and clear away these odds and ends to make room for the fall goods, which are already ordered.

Ten per cent off won't do it. Neither will fifteen, nor even twenty. But 25 per cent will, so we hereby offer a straight cut of 25 per cent on any odds and ends in the house, with the exception of Straw Hats. On these we will make a reduction of 50 per cent—just half the regular prices.

Please remember that many of the suits now offered are of such weight that you can wear them quite comfortably through August, September, and even October, as well as in the early spring.

### JUST AN EXCUSE.

It is so hot that to think at all is to be miserable.

There are many things of importance that might be discussed with profit at this time; but they are all identified with the strenuous life. Social scandal, in the words of the "fan," is "too hot to handle;" political disagreements are sticky and undesirable; civic advancement involves activity inconsistent with atmospheric conditions. Really, these things be too tough to tackle.

But why forget these worriments, and avoid going "crazy with the heat?" We can all talk without raising the temperature, if we talk of things in which we are all agreed; it's the friction of clashing opinions that puts fever in the blood.

Very well, we'll meet you at the ball park! We are all of one mind there. Nobody cares whether you munch peanuts, or ask fool questions as to why the man threw the ball, etc., provided you are rooting for the team. At the park, then; let it be at the park after 3:30.

Or there's the swimming tank. Oh what loads of sweaty discomfort one can wash away in a dip into the cool water of the river. "Cramps," you say? And who cares for cramps who can forget this torturing heat! The water, for me!

Anyway, whether you go to the ball park, or the swimming tank or to the ice house: DON'T WORRY! If you do, you will "go crazy with the heat." And if you are running a newspaper, don't write any editorial about aggravating or unpleasant things, for your intelligence's sake; just write an excuse for not writing.

## EXCITING MANHUNT ON NEAR KENOSHA

KENOSHA, Wis., Aug. 11, 2 a. m.—Since 7 o'clock Thursday night an exciting man hunt has been in progress between Kenosha and Racine and it is believed that shortly after daylight the police of Milwaukee, Kenosha, and Racine, working in conjunction, will have captured Antonio Balistiero, who is charged with having killed Tomasso Tarentino at 189 Detroit street Sunday night.

At a little before dusk Thursday night an Italian answering Balistiero's description was seen skulking along the North-Western track north of this city. A dozen officers started out from Kenosha and an equal number from Racine, and it is thought that Balistiero, if the suspect is the much wanted Italian, will be captured in a few hours.

### Suspect Is Well Armed.

The hunt in the dark for a man known to be a good revolver shot and who is known to be armed, adds zest and danger to the chase. It seems impossible, however for the fugitive to escape the net.

It was at 6:30 o'clock that Lou Morehouse saw the Italian a mile north of the city, near Penoyer sanitarium. He was acting suspiciously, and answered closely the description of the Milwaukee Sicilian. The local police were notified and started in pursuit. They followed the suspect until he disappeared in a sixteen acre cornfield. The four men thought they were so stationed that he could not escape, but he managed to slip out and was next seen crossing the potato farm of William Bose, further north.

Meanwhile the Milwaukee police

had been notified, eight officers were sent to Kenosha. Word did not reach that city until it was too late to catch the early train on the North-Western so the officers did not reach here until nearly 10 o'clock. Michael Peck, and Thomas Sullivan, uniformed officers, who know Balistiero, were included with six detectives, Dennis Sullivan, Mulholland, Nornington, McCrory, Malezewski and Hammes. While this party was on the way the suspect had disappeared near Central park, three miles north of this city.

## MAY CHOOSE SECRETARY FOR BOARD TODAY

MADISON, Wis., Aug. 11.—The state civil service commission will meet at the capitol today and it is expected a choice will be made of a secretary. This position carries a salary of \$2,500 a year, and has been applied for by a large number of meritorious candidates, among them C. O. Marsh of Antigo, chief clerk of the assembly during the sessions of 1903 and 1905. The commission is composed of Dr. S. E. Sparling of Madison, T. J. Cunningham of Chepewa Falls and Otto Grafton of Plymouth.

State Superintendent of Schools C. P. Cary is in the city, having come in last night from West Salem, where he addressed the teachers' institute yesterday.

## JUST LIFE

### THAT CUB REPORTER.

The Minneapolis Journal tells the following story of a cub reporter who didn't know enough to know that he was going up against a stone wall proposition: The new reporter had never described a woman's gown before. But he felt equal to the task now. For the young bride's beauty still ravished his heart; every detail was distinct. He took off his coat, rolled up his sleeves, and wrote reverently: "Her white veil hung down behind, ending half way between the knees and ankle. Her gown was white and there was on each shoulder blade a Maltese cross made of lace, and in the small of the back a lace star. A foot below the star was a lace pleat. The corsage was cut low—a V-shaped opening, eight inches long, and five inches wide at the top. The body of the gown was profusely trimmed with lace from neck to stomach. For further ornament a band of embroidered flowers ran around her stomach." The young man read this over and sighed dreamily, for it brought back to him the bride in all her dazzling loveliness. Then he handed in the manuscript, but the fashion editor got hold of it somehow, and it was side tracked. It never appeared in the paper.

Charlie Pfister would do well to remember where he got his start before he calls newspaper men bad names.

News dispatches from New Mexico seem to verify the police contention that all criminals are born ingrates. A convict recently pardoned by Gov. Otero has thrice attempted to kidnap the executive's son.

Do you see the crowds?  
Oh! yes, I see the crowds.  
And see the baskets of grub.  
Yes! And who are all those good people?  
Oh! they're just cheap family excursionists.

### HORRIBLE CRIMINALS.

"Some young reprobates who have no respect for the property of others, nor for themselves, nor for the mother who gave them birth, feloniously jayhawked, embezzled, stole, decamped, vamoosed and dug out with a six gallon can about half full

of ice cream, from the premises of Olson's restaurant on Saturday night, last. The jacket which contained the can, around which was packed ice, sprung a leak and Mr. Olson was obliged to place it outside, between his building and the next. Late in the evening, after the restaurant was closed, the thieves made off with the can and its contents. Henry says if they would bring the can back he would not ask them for the ice cream. He has a pretty good idea as to the identity of the guilty parties, and is only waiting for a link or two to complete his chain of evidence when they will be brought before the bar of justice with a dull, sickening thud.—Fountain Correspondence, Preston Times.

### TWOULD DRAW A CROWD ANYWHERE.

"The band social was a success, the ladies having it in charge clearing up in the neighborhood of \$16 for the band. And they only charged 15 cents for a 35 cent supper, at that. The way the people turned out shows that our band is a popular institution."—Fountain News, Preston Times.

## THE SPECTATOR.

Western Wisconsin politicians are not surprised at the announcement that Senator James J. McGillivray of Black River Falls would like to be governor of this great commonwealth. "Jim" has had aspirations of this kind for a number of years, in fact almost as long as he has been active in politics, and that borders close onto a quarter of a century. Everything that the ambitious senator from Jackson has done in his fourteen years of service in the Wisconsin senate has indicated a desire upon his part to better his political fortunes whenever the opportunity presented itself. It has been no secret about the capitol that he preferred the executive chair to most anything in the gift of the people of the state. But the gentleman from Jackson is not in the best of standing with the administration; we observed while attending the legislature this past winter, owing to having gotten himself into print on divers occasions during the session as diametrically opposed to policies which were deemed by the administration for the best interests of the state. Under these conditions it does not seem at all probable that the entire administration support would desert possible candidates for the gubernatorial chair who did line up on these most important measures which Senator McGillivray fought, for the Jackson county candidate. We do not believe that Senator McGillivray would show good judgment to proceed any further in his campaign for the governorship, just at this time.

A constant increase in the city's colored population which has become especially noticeable of late, is attributed, by Chief of Police Byrne to the advertising which George Perkins received at the time he was elected justice of the peace in the town of Shelby. It was a good feature story and naturally all the local correspondents of Chicago, New York, Twin City and other outside papers were besieged with inquiries for stories and pictures of the colored man who had the distinction of being the first of his race to be elected to a public office in Wisconsin. The result of this widely spread newspaper story has been to bring several hundred negroes to this city. They came from all over the country and everyone of them will admit, if pinned down to facts, that each had

heard of La Crosse as being a good place for a colored man to live because they had colored men in public offices up here.

# BANKER TAKES 325 MILE WALK FOR HIS VACATION

Edward H. Selle, a banker of Freeport, Ill., arrived in this city this afternoon, on a journey, afoot, from his home to St. Paul. Mr. Selle went to the Stoddard where he will remain until tomorrow morning when he will start on his tramp to Winona, Wabasha, Redwing and thence onward to St. Paul.

When seen by a Tribune reporter this afternoon, Mr. Selle said that confinement to his duties in the bank induced him to take much out-of-door exercise during his summer vacation and that this summer he had attempted the novel feat of walking to St. Paul. He followed the river pretty closely to this city. He left Freeport last Saturday night and walked 32 miles during the night. He covered the first hundred miles in 26 hours and completed his second hundred miles upon arrival here today in 27 hours. He expects to walk into St. Paul Tuesday morning, having covered the distance of 325 miles in 82 hours. Mr. Selle will then spend some time in luxury and ease when he will return to Freeport. He is connected with the Freeport State bank.

## CO. WON'T HAVE TO PAY THE TRIBUNE BUT PUBLICATION IS PURELY LEGAL

A decision has been rendered by Judge Fruit in circuit court, in the case of the Leader-Press vs. the County, in which the treasurer was sought to be enjoined from paying The Tribune Publishing company money earned on contract to do the county printing.

The case rested upon a statute excluding from such work papers less than two years old. The point involved was whether county board proceedings are "advertisements," and come within the prohibition.

Judge Fruit held with the plaintiff, and The Tribune will be unable to collect its pay for the county printing during the years 1904 and 1905.

The question of the legality of the publication was not raised or passed upon, but it is agreed upon by the legal fraternity that no doubt of its legality exists. The county will get its printing for nothing, instead of paying the Leader-Chronicle conspirators an exorbitant price.

## GREEN BAY BREWER NOW WEDS MRS. HOLLMAN

## CULMINATION OF SUIT AND ROMANCE

GREEN BAY, Wis., Aug. 11.—Reliable information received here says that Henry Rahr, the wealthy Green Bay brewer, who was defendant in the highly sensational suit tried here last March, in which Albert W. Hollman, son of Postmaster F. A. Hollman, demanded damages of \$50,000 from Rahr, alleging that the brewer had alienated the affections of his wife, was wedded at Escanaba, Mich., yesterday to Miss Alice Geer, the divorced wife of the plaintiff in the suit.

The trial resulted in a disagreement of the jury, and the woman in the case afterward obtained a divorce, granting her the right to resume her maiden name. Relatives here refuse to talk of the marriage.

The passenger chart of the steamer Eugene C. Hart, which left here yesterday for a trip to the "Soo," included the reservation of a stateroom for Rahr and his bride, who were to board the boat at Escanaba.

The preparations for the wedding were carried on in the greatest secrecy, but the couple found it necessary to go to Michigan to outwit the Wisconsin law prohibiting the re-marriage of divorced persons within one year after securing a divorce.

## AUTOISTS MAY OFFER \$10,000 FOR FIRE STATION

### Decision of Fire Committee to Turn Down Offer Last Night Causes Further Consideration

While it is announced today that the project to sell the old central fire station property for an automobile garage and build a new station is dead, it is learned that another offer will probably be made for the property by the same syndicate of wealthy men, who desire a place for storing their automobiles.

The offer which was turned down by the committee on finance last night was \$8,000 for the entire property. The committee thought that the property ought to bring more than that, as the Stoddard hotel land adjoining, was purchased for \$20,000. Today it is reported around city hall circles that the auto drivers of the city are planning on making one more offer for central fire station property, the sum of \$10,000, an increase of \$2,000 over the last offer.

The finance committee has practically decided if the city cannot get its price, to repair the old engine house at a cost of six or seven thousand dollars.

## SKIN GRAFTED ON FOURTH-OF-JULY WOUND ON LEG

Arthur Streeter, son of Register of Deeds John Streeter of Berlin street, who was burned severely the 4th of July by having some parlor matches ignite in his pocket was removed to the Lutheran hospital yesterday and this morning some grafting was done upon the leg which had been seriously burned.

Skin was removed from the other leg and grafted upon the sore member. Dr. Christianson is attending him.

Rahr is about 45 years old, weighs about 250 pounds, and was a bachelor. His bride is 27 years old and a pronounced beauty.

## CHINESE BOYCOTT IS A SUCCESS

Washington, Aug. 11.—Consul General Rodgers, at Shanghai, has cabled the department of state that the Chinese chamber of commerce at that place is powerless to stop the boycott against United States citizens and United States products, and that the Chinese students really control the situation. The Chinese officials are inactive in the matter. Rodgers adds that all of our interests are seriously affected, and other nationalities at Shanghai are becoming apprehensive lest the boycott movement extend to them.

The state department officials say they can do nothing at present to ameliorate the situation, which already has been brought to the attention of the Chinese government by Minister Rockhill, and it is probable that only the successful negotiation of a treaty more liberal in terms in the matter of the admission of Chinese merchants and students to the United States will serve to check the anti-United States movement.

## CLOSE CALL FOR WORKMEN

New York, Aug. 11.—Under pressure of the weight of the North river, the roof of the northerly tube of the twin tunnels being bored from Fifteenth street, Jersey City, to Morton street, Manhattan, partly gave way, and twenty-two men at work behind the boring shield narrowly escaped drowning. One man lost his life, having been crushed by the shield, stunned and drowned. Nineteen of the workmen took flight when the water began to trickle down upon them and fled toward the gate of the air lock. Three retained their presence of mind and plugged up the break in the roof. When they finished their work they were hip deep in water.

Time and money are supposed to be of equal value. You would give money freely to be able to secure a good servant, a good clerk, a desirable house—or to meet any present need. How much TIME will you give? It may require merely enough in which to read and answer a few want ads.
